

## Child Safety Seat Inspections

The Colonial Heights Sheriff's Office has Certified Child Passenger Safety Technicians and participates in various child safety seat inspection events throughout the area. These technicians go through 32 hours of rigorous training both in classroom and as well as hands on practical training. It is our mission to educate parents and caregivers as to the proper way to install their own child seat, this is so that they can move it from vehicle to vehicle or just to have it in on a temporary basis or until the child outgrows the current one.
