Conservation

Appomattox River Trail

Trails and green space are beneficial to the environment

- Preservation of land and historic structures
- Pollution abatement by reducing vehicle trips
- Prevention/reduction of soil erosion and filter road and agricultural runoff
- Serve as natural floodplain
- Provides hands-on environmental classroom

Health and Wellness

Time visiting green space is beneficial to your health

- **Heart-Healthy.** Just 30 minutes in a park each week helps control high blood pressure.
- **Promotes cancer-fighting cells.** Living in areas with a lot of green space lowers risk of death as compared to with people in least green places.
- **Helps ADHD symptoms and short-term memory.** Children with ADHD symptoms improved attention after 20 minute park walks. Short term memory improved after a nature walk but no improvement after city street walk.
- **Helps with depression and anxiety.** Walking 90 minutes in natural surroundings showed lower activity in the area of the brain linked to depression.
