

Chapter 10. Capital Improvements

The City's Capital Improvements Program (CIP) is a plan to guide the construction, maintenance or acquisition of capital projects over a five year period. It identifies needed capital projects, estimates their costs, and sorts them by year. The program time schedule may change, depending on new information, availability of funds or unexpected circumstances.

The Capital Improvements Program is a planning tool. Each year, as the CIP is developed, the recommendations of the City's Comprehensive Plan should be considered.
